CEO Message

In pursuit of adopting a profession befitting the socio-economic status of our country Bangladesh, I was wandering in the wilderness of life and floating in turmoil of the vast ocean of wisdom after my academic career. Fortunately, I got to the window of opportunity to get through the tapestry of some great people including noble laureates where they translated any man's death as diminishing of mankind. Here it bolstered me by warm-hearted feeling for our poor unprivileged people passing away diminishing the mankind unnoticed with no or very little health support from any source for their survival. This is where I decided to venture a profession to help these downtrodden helpless people with whatever I have and whichever I can with a view that "Nothing ventured, nothing gained".

Thus, I started Mashruba Medical Technologies named after my beloved only daughter Mashruba and since 2007 when we started with nothing but a drawing table at a very humble corner in our residence. With passing of time, we have attained a remarkable position in the business arena where we have now strongly launched for rocketing towards our goal with 30 young energetic skillful colleagues who underpin the growth of the company. I gratefully recognize that in every step of our endeavour, we have been warm heartedly supported by our distinguished and well-known end users. I sincerely note their roles played by joining their effective hands in paving and smoothening our journey in this rough terrain of business world towards our path to success for a noble cause.

Since our ignition, one of the largest Indian Industrial Giant, Allengers Medical Systems Ltd extended their whole-hearted support to raise us to this incredible height in the trade arena of this country.

In short, we would like to profoundly announce that we supplied about 250 units of medical equipment in about all the corners of our country and that not a single unit is standing idle for after sales maintenance and we are only a telephone call away from our customer. This is the way we wanted to extend our services to the people of the country and we have successfully done this irrespective of any business loss or gain. We do believe in the philosophy of renowned business magnet Mr. Warren Buffet that "Fame of the company is the first priority even with temporary loss of fund".

Go ahead my colleagues in Mashruba Medical Technologies and I look forward to enjoy the contribution you will make in the health sector to the remarkable community from which you sprung and which is now ready to make use of your talent acquired by you and your association with Mashruba Medical Technologies.

Hope that your energies and creativity will be channeled towards making a better life for yourself, your families and your communities indeed for making a better world to live.

Monsur Ahammed
CEO

Company Profile

Company Name	: **MASHRUBA Medical Technologies**
Proprietor Name	: **Md. Monsur Ahammed, CEO**
Registered Address	: Palton Bilash, Flat-A7, 72 Purana Palton Lane, Dhaka-1000
Corporate Address	: House No.3/1, Apt. No. 4C & 6D, Block-F, Lalmatia, Dhaka-1207
Telephone/ Mobile	: 02-8142181, Mob: 01730 798 598
Email Address	: info@mashruba.com
Web Address	: www.mashruba.com
Year of Establishment	: 2007
Registration	• Trade License
	• IRC
	• Atomic Energy Registration
	• VAT registration
	• TIN
	• DCCI membership
	• IBCCI
	• DGDP Enlistment
	• Indenting Registration
Type of Business	• Distributor
	• Importer
	• Service Provider
Type of Products	: **Medical Equipments**
	• X-Ray & Imaging Items
	• Software related products
Covering Area	: 64 District of Bangladesh
No. of User/ Clients	
Hospitals/Institutes	: **Still now more than 320 Machines installed in Public & Private Medical Colleges, Hospitals & institutes in Bangladesh.**
Total Employees	: 34 Employees
	• Service Engineer-12
	• Sales & Marketing-10
	• Desk & Support-12
Award	: Achieved a Century International Quality Era Award-2017 from **BID in Geneva, Switzerland.**

Our Mission

We promise to provide quality products at competitive price & best after sales support to our valued customers. We also promise to care our customers round the clock – 24/7 to achieve their trust and reliability on our products & services.

Our Vision

Our Vision is to be LEADER
In the Healthcare market

MILESTONE

MASHRUBA Medical Technologies has achieved the following milestones:

2019 : Installations of 65 (sixty five) units of High Frequency X-Ray Machine at 65 Upzella Health Complex.
High-end digital X-Ray Machine in World Health Organization (WHO) project, Cox's Bazar.
High-End C-Arm X-ray Machine in NITOR, CMCH & SMCH.

2018 : Installation of High-end C-Arm Machine at NITOR-Dhaka, BSMMU, Digital X-Ray Machine at SBMC, Barisal and 1000 mA X-Ray with Fluoroscopy in Pirojpur Sadar Hospital.

2017 : Installation of C-Arm HF 59R at Haemotology Dept of Bangabandhu Sheikh Mujib Medical University (BSMMU, Shahbagh, Dhaka.

2016 : Installation of 630mA Digital X-Ray Machine in Midtown Hospital, Kishoreganj.

2015 : Installation of 1000mA Digital X-Ray Machine in Bangabandhu Sheikh Mujib Medical University (BSMMU), Shahbagh, Dhaka.

2014 : Installation of 1000mA Digital X-Ray Machine in National Institute of ENT, Tejgaon, Dhaka.

2013 : Installation of 45 units C-Arm X-Ray Machine in Government Medical Colleges and Hospitals in Bangladesh.

2012 : Installation of 1000 mA Digital X-Ray Machine in 500 bedded Khilgaon General Hospital, Dhaka.

2011 : Installation of 58 units 100mA Mobile X-Ray Machine in 58 Government district Hospitals.

2010 : Installation of 04 units C-Arm X-Ray Machine in National Institute of Traumatology & Orthopedic Rehabilitation (NITOR).

Our Products

Allengers
Passion for excellence

Digital Radiography system (Ceiling suspended)

Series : DIGIS-CSAAD-V/DIGIX-CSA/DIGIX-CSM/DIGIX-CS
Models : MARS – 15/30/40/50/50+/65/80
Rating : 15/30/40/50/50+/65/80 KW
Application : All general purpose digital radiographic procedures / exposures on a patient standing, lying on a table or sitting on a chair.

Features :
* Single / dual detector systems. * Manual / Fully motorized 3D ceiling suspended stand with / without auto tracking facility for table & vertical bucky.
High resolution 3K x 3K detector. IntegraX (full system integration).
Exposure without detector.

Digital Radiography System (Universal U-Arm) Product Image:

Product : Digital Radiography System (Universal U-Arm)
Models/Ratings : MARS – 15 / 30 / 40 / 50 / 50+ / 65 / 80 KW
Application : All general purpose / extremity digital radiographic procedures / exposures on a patient standing, lying on a table or sitting on a chair.

Features :
- Single detector system.
- Bucky is fitted with anti collision device to protect the detector assembly.
- Infrared remote control operation.
- IntegraX (full system integration) * Mobile table (Mobit/Mobit6).

DIGIXeco

Product : Digital Radiography System (Floor to Ceiling/Ceiling Free)
Models/Ratings : MARS – 15 / 30 / 40 / 50 / 50+ / 65 KW
Features : Full DICOM 3.0 connectivity, high frequency 40KHz generator (less skin dose).

Integra X -Integrated image acquisition system, versatile vertical bucky stand having an inbuilt FPD/Wi fi FPD to enable all types of radiographs with mobile table/bucky table.

MOBILX DR SERIES

Models : MARS – 6 / 15
Rating : 6 / 15 KW
Application : Instant imaging for trauma cases and bed side X-Rays.
Features : 14" x 17" Portable Wired/Wireless Flat Panel detector, 17" touch console, Integra X – Integrated image acquisition system.

LAN connectivity with DICOM printer, operates on just 15 Amps / 230 Volt standard wall socket, full DICOM 3.0 connectivity.

ANGIOTAB SERIES

Product Image:

Remote Controlled RFTable /X-Ray Systems (Digital/Analog), 90, 30
Models/Ratings : MARS – 15 / 30 / 40 / 50 / 50+ / 65 / 80 KW
Features : RF system designed for all radiographic and fluoroscopic examinations Advance imaging system with 1Kx1K imaging chain.

Remote Controlled RF Table / X-Ray Systems (Digital/Analog), 90 90

Models/Ratings : MARS – 15 / 30 / 40 / 50 / 50+ / 65 / 80 KW Rating : 15/30/40/50/50+/65/80 KW
Features : Both side ±90° tilt, Height adjustment (lower height for easy patient loading in case of trauma/ wheelchair patients), Remote diagnostics and calibration, Full body scan of patient, Product description:

Digital Mammography – FAIRY DR :

Series : FAIRY^{DR}
Models/Rating : MAM – VENUS / MAM – VENUS+
Application : Fully motorized Isocentric mammography for breast cancer detection.

Ortho pantomo graph(OPG)

Product : Ortho Pantomo Graph (OPG)
Models/Ratings : ALLDENT HF – 3.5 KW
Series : SmartPan

C-Arm Compatible ESWL

Models/Ratings/ Series : UROLITH+
Features : The C-Arm can be latched very easily with Urolith+
The C-Arm cab be unlatched easily for the other Urological procedures in the O.T like P.C.N.L and URS

Multipara Monitor (MPM):

Models : LIBRA – 105, 106, 107, LIBRA PLUS – 105, 106, 107
LIBRA PLUS – 125, 126, 127, Series: LIBRA PLUS
Application : Monitoring of vital parameters of patients like ECG, Non-invasive B.P, Respiration and temperature.

Our Products

Allengers
Passion for excellence

Fixed Cathlab

Series : ALTIMA
Rating : 80 / 100 KW
Application : Interventional cardiovascular, adult and pediatric.
Features:
- Modular generator.
- Fully motorized movements.

- Non contact proximal sensor based anti collision device.
- Pre-programmable positions.
- Preview collimation.
- SID variation., Accelerated movement.
- Detector / Image intensifier.
- Liquid metal X-Ray tube, DICOM 3.0 connectivity.

Mobile Cathlab

Models : LIFE – 20/40/65, PHOTON – 80
Series : LIFE / PHOTON
Rating : Life – 20 / 40 / 65 KW
Photon – 80 KW
Application : Interventional cardiovascular, adult and pediatric.
Features :
- Fully motorized.
- Modular generator.

- Detector / Image intensifier.
- Preview collimation., DICOM 3.0 connectivity.

Ortho/Gastro/ UROLOGY : High Frequency C-Arm

Product : Trolley Free C-Arm image intensifier
Models/Ratings : HF 59R, 6 / 15 KW
Series : Rollscan
Features : 50 Khz HF generator (less skin dose), Powered by 1K x 1K imaging system.

High quality – superb images, LCD display
Convenience of operation due to monitors mounted on C-Arm carriage, Fully integrated unit – enables ease of shifting and operating.
HF-59R Powered by 1K X 1K Imaging System

Ortho/Gastro/ UROLOGY : Image Plus

Product : C-Arm image intensifier
Models/Ratings : HF49R, (3.5 / 6 KW)
Series : Image Plus
Features : Image Plus comes with 100F memory for easy operation (DIP – IQ memory optional), Emergency exposure, etc.

SPECIAL FEATURES
- 50 KHz generator with higher frequency yielding better image quality with less skin dose and lower ripple levels.
- High resolution monitors.
- Anatomical Program (APR) for radiography of 4 body parts (up to 8 programs)

Neurology Electroencephalograph(EEG)

Models : 24 / 32 / 40
Application : Recording and monitoring of electrical activities of brain and to investigate and locate sezure origin.
Features :
- Light weight and compact amplifier.
- USB 2.0 interface.
- Synchronized high resolution MPEG-4 video.

Neurology Electromyography (EMG)

Models: SCORPIO – 2 / 4
Application : Find diseases that damages tissues, nerves or the junctions between nerves and muscles (neuromuscular junctions).
Features :
- Capable to perform EMG/EP/NCS studies.
- Easy to change EMG, NCS and EP test by single click.
- Display of current on shock simulator.

- Compatible with TDS 39 / 49 head phones.
- Simultaneous display of 2 / 4 / 8 channel EMG acquisition.

Holmium YAG Surgical Laser

Applications
- Lithotripsy
- Percutaneous Nephrolithotomy (PCNL)
- Retrograde Intrarenal Surgery (RIRS)
- Urethrotomy tumor excision Transurethral Incision of small Prostate (TUIP)
- General Surgery
- Mini perc and micro perc

Blaze - 35
35W Holmium YAG

Our Products

Anesthesia

Model: AM 6000

Features:

- Integrated CO2 circle absorber with heating system
- 2-Vaporizer Selectatec mounting system
- Built-in Electronic Ventilator Adult/Pediatric
- CMV, PCV, SIMV & PS Ventilation modes are standard
  Double Flowmeter for O2, N2O and Air
- Comprehensive alarm system
- Hypoxic Guard Safety System
- FiO2 monitoring
- Airway Pressure monitoring
- Three full-width spacious drawers
- Built-it backup Battery

Electro Surgical Generator

Model: ESU – 400

Model: ESU- 300

Features:

- 3-Zone control system for easy operation
- Individual LED display for each Zone
- Advanced & accurate power output control technology
- Monopolar and Bipolar functions
- Multiple alarm functions
- Volume control
- Dual power output control, hand and foot switch
- Fast trouble-shoot by error alarm system.

Infant Incubator

Model: A 3186

Features:

- Microprocessor controlled system
- LED display
- Five Oval Ports
- Easy access panel in front and back
- Grommets for cables and probes
  Trendelenburg and Reverse
- Trendelenburg Patient skin temperature probe
- Auxiliary temperature input
- Passive Humidity System
- Skin mode and Air control mode
- Air micro-filter
- Monitor shelf
- IV Pole Stand assembled w/ 2 drawers and 1 large drawer
  Optional phototherapy lamp is available

Ultrasound

Model: DUS 7000

Application:

New Cutting-edge 4D Digital Imaging Technologies, it provides images of exceptional resolution and detail, adding wide range of services with shared capabilities such as Vascular, Abdominal, Pediatric/Fetal, OB & OR and many other applicationsl.

Features:

- 18.5" TFT-LCD Monitor
- Four transducer connector
- 500 GB Image Storage Capacity
- Five USB Ports
- Basic measurement package
- Obstetrics measurement package
- Gynecology measurement package
- Cadiology measurement package
- Abdomen measurement package
- Vascular measurement package
- Urology measurement package
- Small Parts measurement package
- Paediatrics measurement package
- DICOM Transmission

Infant Warmer

Model : A4051+

Application:

The Advanced A4051+ is used in Pediatric Hospitals, Birthing Centers, Nursery Units and Neonatal Intensive Care Units.

Features:

- Microprocessor Color Display Monitor
- Servo control Patient skin mode
- Manual mode
- Intelligent Pre-Heating Function
- Retractable X-Ray Tray
- Electric Trendelenburg and Anti-Trendelenburg
- Thermal servo controlled mattress
- Foldable Acrylic side protectors
- Panel of Aspiration Gases + Babypuff
- Oxygen and air flowmeters
- Timer and Apgar Counter
- Patient skin temperature probe
- 2 Drawers with tray
- Two E-Type Cylinder holder
- Heating failure alarm
- Power supply failure
- System failure
- Patient temperature monitoring
- Phototherapy systems PT-2000
- Reverse phototherapy system
- IV Pole
